

## Behavioral Health

12/3/15

### **Message from DBH Director CaSonya Thomas**

It is with deep sorrow that we come together as a department, knowing that our County family has suffered a terrible loss. This is a difficult situation and no words can heal the loss we as a community have experienced.

I would like to commend our dedicated staff who have volunteered tirelessly to support our fellow county employees, community partners and community members. This selfless giving of time, attention and empathy are not unnoticed and greatly appreciated.

It is critical that in moments like this, DBH staff unites in supporting the victims, their families and the efforts taking place to restore hope to our community. Please keep the victims in your thoughts and prayers.

We are San Bernardino County Strong, one family of dedicated people who care about you and the community we serve.
